

Monitoring your health is rewarding.

Getting a yearly physical is important to track any health changes and ensures that you and your provider are aware of the ins and outs of your health status.

Care just got even cooler

New members who schedule and complete a physical from now until the end of May will receive a \$20 Thornton's gift card!

Members who complete their physical will be automatically entered into a drawing for one of three Orca Coolers.

The drawing will take place in June—just in time for summer.
